

# Labor Market and Social Welfare Policies Under the Pressure of Socio- Demographic Changes

Jiyeoun Song

GSIS, SNU

June 23, 2022

# Outline of Talk

- Socio-demographic changes in East Asia and beyond
  - Aging population
  - Declining fertility rates
- Challenges for the labor market
- Challenges for the social welfare policies
- Japan's policy response
- Policy implications for Korea

# Japan's Aging Society

# Aging Population

- Composition of the Population
  - Youth population (0-14 years old)
  - Working age population (15-64 years old)
  - Elderly population (over 65 years old)
    - Japan: 28.8% (2020); Korea: 14.9% (2019); Taiwan: 14% (2019)
- Threshold of the population aging
  - 7%: Aging society
  - 14%: Aged society
  - 20% Super-aged society

# Speed of Aging

Country \ Year	Aging Society (7%)	Aged Society (14%)	Super-Aged Society (20%)	From 7% to 14% (years)	From 14% to 20% (years)
<b>Korea</b>	<b>2000</b>	<b>2017</b>	<b>2026</b>	<b>17</b>	<b>9</b>
<b>Japan</b>	<b>1970</b>	<b>1994</b>	<b>2006</b>	<b>24</b>	<b>12</b>
US	1942	2015	2036	73	21
UK	1929	1976	2026	47	50
Germany	1932	1972	2009	40	37
France	1864	1979	2018	115	39
Italy	1927	1988	2006	61	18

선생님께서 물어 보셨습니다—  
 “할래요 ‘업아 업아’?”  
 “네, 선생님!”  
 “그럼 ‘올라가자’를 불러주세요!”  
 “올라가자!”  
 “와— 업아!”  
 친구들이 모두 하다 못했습니다.

## 셋부터는 부끄럽습니다.

우리 아이들이 가족계획을 알고 있습니다.  
 자식은 하나이지만 물건 사재 생각엔 부끄러워 합니다.  
 부모들의 생활에, 자녀들의 생활에 중요토록을 하기 위해서는  
 알맞은 자녀수가 선택되어야 하겠습니다.  
 지금 우리에게는 하나 아니면 둘만의 자로  
 생이 되면 행복히 살 수 있습니다.

# 하나씩만 낳아도 삼천리는 초만원

7월28일로 우리나라 인구는 4천만을 넘어섭니다. 인구는 50초에 한사람꼴로 하루에 1,700여명, 한달에 5만명 1년이면 대전시 인구와 맞먹는 60여만명이 늘어나고 있습니다.

우리나라의 인구가 4천만명을 넘어섭니다. 세계에서 3번째로 북밀한 나라-이는 결코 자원이 될 수 없습니다.

전혀 이해되는 취직난, 교통정체, 주택부족, 환경오염, 질병과 증가 등...

이 모두가 사람이 많기 때문이라고 생각하실 것은 없습니다?

그렇습니다. 이제 폭발적인 인구증가는 우리가 행복하게 살아가는데 가장 큰 장애 요인이 됩니다. 그러나 늘기 때문입니다. 그것은 지금 당장이 할 수 있는 아주 쉽고도 중요한 일이 있기 때문입니다.

당신에게 딸자는 자녀수는 하나? 둘?

이 질문에 따라 당신과 당신의 가족은 더 여유 있는 생활을 할 수도 있고 더 고강도의 생활을 할 수도 있습니다.

가족계획이란 낳아놓고 버려둘 낳지 않자는 것이 아닙니다.

자녀수가 많으면 그만큼 생활이 어려워지고 교육에 부담이 늘어나며 같은 돈으로도 얼마의 자식을 기를 수 없게 됩니다. 엄마 나이 25-35세 사이에 2-3년 차를보 아기를 가질 때 아기와 엄마도 건강하고 부모의 애를 아가에게 걸고두 혼돈이 잘 가질 수 있습니다.

# 가가호호 아이돌셋 하하호호 희망한국

지구에서 어떤 대한민국을 물려주시겠습니까?  
현재의 가정으로는 우리나라의 미래가 없습니다.  
집집마다 아이 돌 셋만 모아 나라가 살아납니다.  
둘째 셋째로 대한민국의 희망을 만들어 주세요!

# Challenges for the Labor Market

- Declining working age population
- Retirement of the baby boomer generation
  - Japan's baby boomer generation (those born in between 1947 and 1949)
  - Korea's baby boomer generation (those born in between 1955 and 1963)
- Labor shortages; problems of skills transfer in the workplace

# Working Age Population (15-64 Years Old)

- OECD (2021), Working age population (indicator). doi: 10.1787/d339918b-en (Accessed on 15 November 2021)

# Labor Force Participation Rate (2021)

	Elderly (over 65 years old)	Youth (15-24 years old)
<b>Korea</b>	<b>36.3%</b>	<b>29.6%</b>
<b>Japan</b>	<b>35.6%</b>	<b>48.9%</b>
US	18.9%	55.5%
UK	10.5%	58.6%
Germany	7.5%	52.3%
France	3.5%	39.7%
OECD	15.5%	47.5%

([https://stats.oecd.org/Index.aspx?DataSetCode=lfs\\_sexage\\_i\\_r](https://stats.oecd.org/Index.aspx?DataSetCode=lfs_sexage_i_r), accessed June 19, 2022).

# Female Labor Force Participation

# Challenges for Social Welfare Policies

- East Asia's economic growth strategy
  - “Developmental states”
  - A wide range of the public policies to promote a country's export and industrialization
  - Economic development as top policy priority
  - Yet Japan, South Korea, and Taiwan have focused on the development of social welfare programs for the past few decades
    - Japan: 1960s
    - Korea and Taiwan: late 1980s

# Challenges for Social Welfare Policies

- Increasing social welfare expenditures (esp. for the elderly)
  - *Pension*
  - *Health insurance*
  - Long-term care insurance
- New social risks
  - child care, elderly care, and etc.
- Growing old-age dependency ratio
- Shrinking taxpayers and tax base

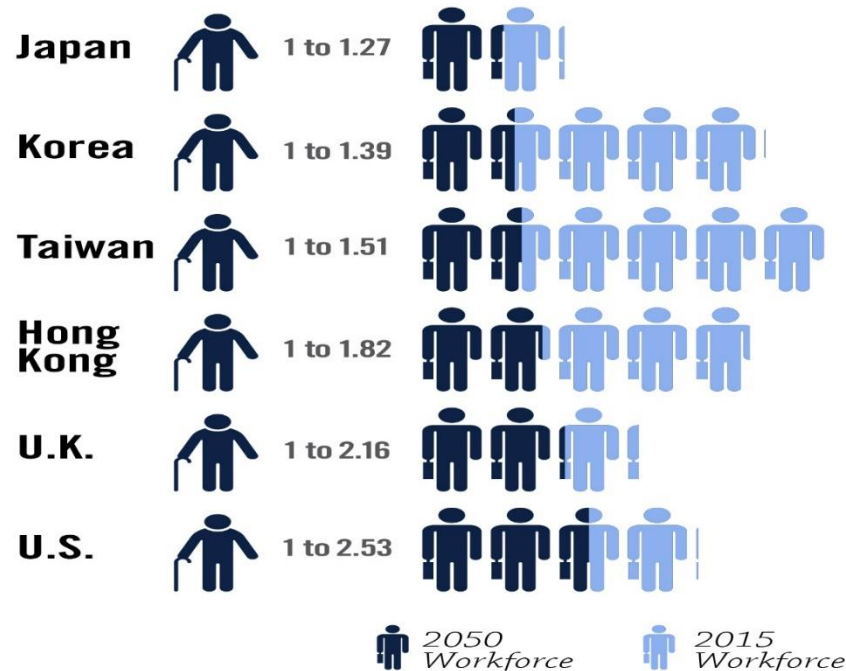

# Gov't Social Expenditure (% of GDP)

- OECD (2021), Social spending (indicator). doi: 10.1787/7497563b-en (Accessed on 16 November 2021)

## A Disappearing Workforce to Support the Elderly

*The projected number of working age people by 2050 for every person aged 65 and over*

Sources: Pensions at a Glance 2015: OECD and G20 indicators, OECD Publishing, Paris. The demographic old-age dependency ratio is defined as the number of individuals aged 65 and over per 100 people of working age defined as those aged between 20 and 64. The World Bank Data, United Nations Data. Taiwan: Council for Economic Planning and Development

<https://www.intellasia.net/for-asias-rapidly-aging-populations-innovation-and-forward-thinking-policies-drive-retirement-security-623061>

# Japan's Social Welfare Programs

- Japan's universal health insurance and national pension programs (1961)
  - Introduction and expansion of social welfare programs
- Yet Japan's welfare reforms since the 1980s
  - Pension reforms
    - Introduction of the first tier of the basic pension that would encompass all the population in 1985
    - Increase in the pension contribution with the reduction of the pension benefits
    - Increase the pensionable age and the mandatory retirement age
  - Health insurance reforms
    - The government's subsidy as well as cross-subsidization in the 1980s
    - Elderly Health Insurance Program (2008)

# Japan's New Social Risks

- New social risks, new social welfare programs
  - Declining fertility rates; aging population
- Expansion of childcare programs and services
  - “1.57 shock” (1989)
  - Angel Plan (1994)
  - New Angel Plan (1999)
  - Childcare leave; childcare allowances
- Introduction of universal elderly care
  - Long-term care service (2000)
  - Care service provision over 65 years old

# Japan's Policy Response

- 2<sup>nd</sup> Abe Government (2012-2020)
  - Abenomics (January 2013)
    - Monetary policy, fiscal expansion, structural reform
  - Second stage of Abenomics (September 2015)
    - (1) Strong economy (GDP 600 trillion yen)
    - (2) Child care support (TFR 1.8)
    - (3) Social security (zero elderly care leave)
  - Labor market and social welfare policies as a tool of boosting economic growth and enhancing productivity

# Japan's Policy Response: Labor Shortage

- Womenomics (2013)
  - “Create a world where women can shine”
  - Encouraging women to participate in the labor market
    - Solution to the problems of labor shortage
    - Productivity growth
  - Promoting the hiring of female workers
  - Female workers' career development within corporations as well as the government
  - Diversity in the workplace
  - Provision of various infrastructure (e.g. child care); work and life balance

# Japan's Policy Response: Labor Shortage

- “Dynamic Society of One Hundred Million (ニッポニー一億総活躍プラン)” (September 2015)
  - One hundred million population after 50 years
  - Productivity growth
    - Flexibility; diversity

# Japan's Policy Response: Labor Shortage

- Extension of the retirement age
  - Revision of the Elderly Employment Security Law (60 years old, effective from 1998)
  - Another revision (no retirement age, 65 years old retirement, or continuing employment, effective from April 1, 2006)
  - Extension of the continuing employment to all workers (2012)
  - New Elderly Employment Security Law (effective from April 2022)
    - Firms' efforts to allow elderly workers to work until the age of 70

# Japan's Policy Response: Labor Shortage

- Expansion of hiring foreign workers
- Revision of the Immigration Control and Refugee Recognition Act (December 2018)
  - Semi-skilled and skilled foreign workers
  - 14 industrial sectors suffering from labor shortages
  - Family reunion for a group of skilled foreign workers; possibility of applying for permanent residency in Japan
  - Expect to receive 345,000 foreign workers in the next five years

# Japan's Policy Response: Social Welfare Programs

- Retrenchment of social welfare programs
  - Benefit cuts; social security contribution premium increase; extension of the pensionable age
    - Pension
    - Health care insurance
- Extension of social welfare coverage
  - Blind spots of social welfare programs
    - Non-regular workers
    - Part-time workers (less than 20 hours per week)

# Japan's Policy Response: Fiscal Stability

- Tax increase: consumption tax
  - 3% consumption tax (April 1989)
  - 5% consumption tax (April 1997)
  - Democratic Party of Japan
    - Social Security and Tax Reform (社会保障と税の一体改革) (August 2012)
  - 8% consumption tax (April 2014)
  - 10% consumption tax (October 2019)

# Policy Implications for Korea

- Korea's more rapid demographic changes than those of Japan
- Labor market
  - Working age population's peak at 73.15% (in 2017)
  - Youth and females with higher education vs. elderly population
  - Low skilled foreign workers
- Social welfare programs
  - Universal welfare vs. selective/targeted welfare
  - High poverty rate of the elderly population
  - Dualization of the labor market; blind spots of the social welfare coverage
  - 380 trillion KRW in response to declining fertility rates, yet no sign of solution
- Tax policy
  - "Social welfare expansion with tax increase"
  - Resistance to tax increase

# Conclusion

- Socio-demographic changes in most advanced industrial countries
- Yet, different speed of the change as well as diverging policy responses to such common problems
- East Asia
  - More drastic socio-demographic changes
  - A series of policy responses, but ineffective
  - Possible solutions?
